Why Give? – John W. DeVries

"Why Give?" makes the case that giving unlocks God's infinite resources. If we give in order to get for ourselves, we succumb to the heretical "prosperity" doctrine. Instead, DeVries explains, we give in order to get in order to give more! The result of this kind of giving is joy - becoming more like God, experiencing sympathy for others, discovering God's infinite resources, feeling a renewed joy from within, following Christ's example, connecting with the grace of God that inspires more giving and joy, and motivating others to give.
